Re: KPDES Application Notice of Deficiency
KPDES NO.: KY0024007
Lacy Elementary School
AI ID: 777
Christian County, KY

Mr. Cleaver:

Per our phone conversation I would like to explain why there is no discharge at Lacy Elementary School. Prior to 2003 the school was equipped with constant flow urinals in all male restrooms. This reduced the water flow drastically enough to allow no discharge from the sand filter. Obviously the original engineering for the sand filter is an "overkill" for the present situation. If you have additional questions, call me at (270) 889-4262.

Sincerely,

Ivan Baker
Director of Facilities
Christian County Board of Education
